About datasets used in this table

Value Notes

⚠ Methodology differences may exist between data sources, and so estimates from different sources are not comparable.

Some estimates presented here come from sample data, and thus have sampling errors that may render some apparent differences between geographies statistically indistinguishable. Click the Quick Info ⓘ row in TABLE view to learn about sampling error.

The vintage year (e.g., V2024) refers to the final year of the series (2020 thru 2024). Different vintage years of estimates are not comparable.

Users should exercise caution when comparing 2019-2023 ACS 5-year estimates to other ACS estimates. For more information, please visit the 2023 5-year ACS Comparison Guidance page.

Fact Notes

(a)   Includes persons reporting only one race
(b)   Hispanics may be of any race, so also are included in applicable race categories
(c)   Economic Census - Puerto Rico data are not comparable to U.S. Economic Census data

Value Flags

D   Suppressed to avoid disclosure of confidential information
F   Fewer than 25 firms
FN   Footnote on this item in place of data
NA   Not available
S   Suppressed; does not meet publication standards
X   Not applicable
Z   Value greater than zero but less than half unit of measure shown
-     Either no or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest open ended distribution.
N   Data for this geographic area cannot be displayed because the number of sample cases is too small.

QuickFacts data are derived from: Population Estimates, American Community Survey, Census of Population and Housing, Current Population Survey, Small Area Health Insurance Estimates, Small Area Income Estimates, State and County Housing Unit Estimates, County Business Patterns, Nonemployer Statistics, Economic Census, Survey of Business Owners, Building Permits.
